General Comment:I feel this proposed new regulations will not help the cause of National

Security. Bulk Powder has been shipped throughout the US and there have not been any problems that I have heard of or saw in the news media. It will add to the burden already placed on the interstate shippers, and for what. It penalizes the law abiding citizen, and will not help the cause of National Security. I urge that these new regulations not be adopted.

Bernard Galante, USN-RET and proud of it.
